Preceptee Action Plan

Review the objectives and clinical experiences for this precepting experience. Identify at least three tips or strategies that you intend to apply to your practice. Briefly describe how you plan to incorporate this new information or skill(s) into your clinical practice.

1. New information or skill: ________________________________
   How I can incorporate this information or skill into my precepting activities:
   ____________________________________________________________

2. New information or skill: ________________________________
   How I can incorporate this information or skill into my precepting activities:
   ____________________________________________________________

3. New information or skill: ________________________________
   How I can incorporate this information or skill into my precepting activities:
   ____________________________________________________________
